1. NATURE AND CONTINUANCE OF OPERATIONS

Triumph Gold Corp. was continued under the British Columbia Business Corporations Act on December 19, 2011 and is extra-provincially registered in the Yukon Territory. The Company is listed on the TSX Venture Exchange ("TSXV"), having the symbol "TIG". The Company's principal business activity is the exploration for mineral resources, primarily in the Yukon Territory, Canada.

The Company's corporate office and principal place of business is Suite 1100, 1111 Melville Street, Vancouver, British Columbia, Canada, V6E 3V6.

The consolidated financial statements have been prepared on a going concern basis which assumes the Company will realize its assets and discharge its liabilities in the normal course of business. The Company's ability to continue as a going concern is dependent upon its ability in the future to achieve profitable operations and, in the meantime, to obtain the necessary financing to meet its obligations and repay its liabilities when they become due. External financing, predominantly by the issuance of equity to the public, will be sought to finance the operations of the Company. Although the Company has a history of raising money, there is no guarantee of this in the future. In March 2020, the World Health Organization declared coronavirus COVID-19 a global pandemic. This contagious disease outbreak, which has continued to spread, and any related adverse public health developments, has adversely affected workforces, economies, and financial markets globally, potentially leading to an economic downturn. While the impact of COVID-19 is expected to be temporary, the current circumstances are dynamic and the impacts of COVID-19 on business operations cannot be reasonably estimated at this time. There can be no assurance that the Company will not be impacted by adverse consequences that may be brought about by the pandemic's impact on its business, results of operations, financial position and cash flows in the future. As a result, there always exists uncertainty that causes significant doubt about the Company's ability to continue as a going concern. These consolidated financial statements do not include any adjustments to the amounts and classification of assets and liabilities that might be necessary should the Company be unable to continue in business.

2. BASIS OF PREPARATION

Statement of compliance to International Financial Reporting Standards

These condensed consolidated interim financial statements have been prepared in accordance with International Financial Reporting Standards ("IFRS") issued by the International Accounting Standards Board ("IASB") and interpretations of the International Financial Reporting Interpretations Committee ("IFRIC"). Therefore, these financial statements comply with International Accounting Standard ("IAS") 34 "Interim Financial Reporting".

This interim financial report does not include all of the information required of a full annual financial report and is intended to provide users with an update in relation to events and transactions that are significant to an understanding of the changes in financial position and performance of the Company since the end of the last annual reporting period. It is therefore recommended that this financial report be read in conjunction with the annual financial statements of the Company for the year ended December 31, 2019.

The financial statements were authorized for issue on November •, 2020 by the directors of the Company.

Notes to the Condensed Consolidated Financial Statements Nine month period ended September 30, 2020 (Unaudited – Prepared by management) (Expressed in Canadian dollars)

2. BASIS OF PREPARATION (continued)

Principles of consolidation

These consolidated financial statements include the accounts of the Company and its wholly-owned subsidiary, Bushmaster Exploration Services (2007) Ltd. All significant intercompany transactions and balances have been eliminated upon consolidation. The financial statements of the subsidiary are prepared using consistent accounting policies and reporting dates of the Company. The functional currency for the Company and its subsidiary is the Canadian dollar.

New accounting standards adopted

The Company adopted IFRS 16, Leases, on January 1, 2019. On initial adoption, the Company elected to record right-of-use assets based on the corresponding lease obligation. A right-of-use asset and lease obligation of \$88,087 were recorded as of January 1, 2019, with no impact on deficit. When measuring the present value of lease, obligations, the Company discounted remaining lease payments using its incremental borrowing rate at January 1, 2019, which was a rate of 8%.

At inception of a contract, the Company assesses whether a contract is, or contains a lease based on whether the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

The Company recognizes a right-of-use asset and a lease obligation at the lease commencement date. The right-of-use asset is initially measured based on the initial amount of the lease obligation adjusted for any lease payments made at or before the commencement date. The assets are depreciated over the lease term using the straight-line method as this most closely reflects the expected pattern of consumption of future economic benefits.

The lease obligation is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined, the Company's incremental borrowing rate. Variable lease payments that do not depend on an index or rate are not included in the measurement of the lease obligation. The lease obligation is subsequently measured at amortized cost using the effective interest rate method.

New accounting standards issued but not yet effective

Other accounting standards or amendments to existing accounting standards that have been issued but have future effective dates are either not applicable or are not expected to have a significant impact on the Company's financial statements.

Exploration and evaluation assets and related expenditures comprise:

Freegold Mountain, Canada

The Freegold Mountain project is comprised of the following exploration properties:

(i) Tinta Hill Property, Yukon

The Company holds a 100% interest in the Tinta Hill Property subject to an annual advanced royalty payment of \$20,000 and a 3% Net Smelter Return ("NSR"). The advanced royalty payment will be netted against royalty interest payments after commencement of commercial production. Of the 3% NSR, the Company can elect to purchase 2% at a cost of \$250,000 for the first 1% and \$1,000,000 for the second 1%.

As at September 30, 2020, the total advanced royalty payment made was \$80,000 (December 31, 2019 – \$60,000). During the nine month period ended September 30, 2020, the Company paid \$7,304 (December 31, 2019 - \$Nil) in filing fees for the Tinta Hill Property.

(ii) Freegold Property, Yukon

The Company holds a 100% interest in the Freegold Property subject to an annual advanced royalty payment of \$10,000 and a 3% NSR. The advanced royalty payment will be netted against royalty interest payments after commencement of commercial production. Of the 3% NSR, the Company can elect to purchase 2% at a cost of \$250,000 for the first 1% and \$1,000,000 for the second 1%.

As at September 30, 2020, the total advanced royalty payment made was \$40,000 (December 31, 2019 – \$30,000). During the nine month period ended September 30, 2020, the Company paid \$7,304 (December 31, 2019 - \$Nil) in filing fees for the Freegold Property.

4. EXPLORATION AND EVALUATION ASSETS (continued)

Freegold Mountain, Canada (continued)

(iii) Goldstar Property, Yukon

The Company holds a 100% interest in the Goldstar Property subject to an advance payment of \$10,000 and a 3% NSR. The advanced royalty payment will be netted against royalty interest payments after the commencement of commercial production. Of the 3% NSR, the Company can elect to purchase 2% at a cost of \$500,000 for the first 1% and \$1,000,000 for the second 1%.

As at September 30, 2020, the total advanced royalty payment made was \$40,000 (December 31, 2019 – \$30,000). During the nine month period ended September 30, 2020, the Company paid \$7,303 (December 31, 2019 - \$Nil) in filing fees for the Goldstar Property.

(iv) Golden Revenue Property, Yukon

The Company holds a 100% interest in the Golden Revenue Property subject to a 1% NSR in favour of ATAC Resources Ltd. on that portion of the property which is not subject to an underlying royalty. There is a 2% underlying NSR on a portion of the property. A total of 75% of the underlying NSR (1.5% NSR) may be purchased at any time for \$600,000. On June 13, 2018, the Company acquired the underlying NSR for a purchase price of \$100,000, thereby conveying the exclusive right to be paid all future rights associated from the NSR to the Company.

Other, Canada

(i) Tad/Toro Property, Yukon

The Company holds a 100% interest in the Tad/Toro Property subject to a 3% NSR, of which the first 1% may be purchased for \$500,000 and a second 1% for \$1,000,000. During the nine month period ended September 30, 2020, the Company paid \$3,050 (December 31, 2019 - \$Nil) in filing fees for the Tad/Toro Property.

The Company wrote-down the value of the Tad/Toro Property to \$1 in previous years.

Andalusite Peak, British Columbia, Canada

The Company staked the Andalusite Peak Property and held a 100% interest. On August 8, 2019, the Company and Rio Tinto Exploration Canada Inc. ("RTEC") entered into an option agreement whereby RTEC has the option to obtain a 100% interest in the Andalusite Peak property. Under the terms of the option agreement, 100% ownership of the claims were transferred to RTEC and RTEC agreed to pay \$3,000,000 over a five-year option period and reserve for the Company a 1% net smelter returns royalty, which is capped at \$50 million. 100% interest in the Andalusite Peak property will be returned to the Company if RTEC opts out of the staged payments totaling \$3,000,000 over the five year option period. The sum of \$25,000 was paid to the Company (of which \$10,420 has been credited against exploration and evaluation assets and the excess of \$14,580 over the carry amount was recognized in other income during the year ended December 31, 2019) within 45 days of the option agreement date. A further \$50,000, which was payable on or before the first anniversary date of the option agreement, was received on July 21, 2020 and recorded in other income.

6. COMMITMENTS AND CONTINGENCY (continued)

d) Flow-through common shares require the Company to spend an amount equivalent to the proceeds of the issued flow-through common shares on Canadian qualifying exploration expenditures. The Company may be required to indemnify the holders of such shares for any tax and other costs payable by them in the event the Company has not made the required exploration expenditures. Under the IFRS framework, the increase to share capital when flowthrough shares are issued is measured based on the current market price of common shares. The incremental proceeds, or "premium", are recorded as deferred income.

During the year ended December 31, 2019, the Company received \$2,960,316 from the issuance of flow-through shares. To September 30, 2020, the Company has expended the required eligible expenditures. Such expenditures, as incurred and once renounced, are not available to the Company for future deduction from taxable income.

e) On July 10, 2018, the Company entered into a sublease agreement that provides for a base rent of \$5,175 per month, commencing September 1, 2018 to August 31, 2020. At September 30, 2020 and December 31, 2019, a security deposit consisting of the last two months of rent, totaling \$10,350, was recorded in prepaids and deposits.

Upon adoption of IFRS 16, the Company initially recognized a lease liability obligation related to its lease commitment for its office lease of \$88,087. The liability was measured at the present value of the remaining lease payments, discounted using the Company's incremental borrowing rate of 8% as at January 1, 2019. The associated right-of-use asset was measured at the lease obligation amount, resulting in no adjustment to the opening balance of deficit. The right-of-use asset will be depreciated and the Company will record a related interest expense over the term of the lease liability obligation. During the nine period ended September 30, 2020, the Company paid lease obligations of \$31,050, which have been recorded in administrative expenses, and recorded \$30,540 in depreciation of the right-of-use asset and \$510 in interest expense.

Commencing September 1, 2020, the Company extended the sublease to August 31, 2022. The Company recognized a lease liability obligation and associated right-of-use asset related to its lease commitment for its office lease of \$115,185. The liability was measured at the present value of the remaining lease payments, discounted using the Company's incremental borrowing rate of 8%. The right-of-use asset will be depreciated and the Company will record a related interest expense over the term of the lease liability obligation. During the nine period ended September 30, 2020, the Company paid lease obligations of \$5,175, which have been recorded in administrative expenses, and recorded \$4,442 in depreciation of the right-of-use asset and \$733 in interest expense.

8. SEGMENTED INFORMATION

The Company operates in one operating segment, that being exploration of mineral properties. All of the Company's assets are located in Canada.

Notes to the Condensed Consolidated Financial Statements Nine month period ended September 30, 2020 (Unaudited – Prepared by management) (Expressed in Canadian dollars)

9. CAPITAL MANAGEMENT

The Company includes cash and cash equivalents and equity, comprising issued common shares, reserve and deficit, in the definition of capital.

The Company manages its capital structure and makes adjustments, based on the funds available to the Company, in order to support the acquisition, exploration and development of mineral properties. The Board of Directors does not establish quantitative return on capital criteria for management, but rather relies on the expertise of the Company's management to sustain future development of the business.

The properties in which the Company currently has an interest are in the exploration stage; as such the Company is dependent upon external financings to fund activities. In order to carry out planned exploration and pay for administrative costs, the Company will spend its existing working capital and raise additional funds as needed. The Company will continue to assess new properties and seek to acquire an interest in additional properties if it feels there is sufficient geologic or economic potential and if it has adequate financial resources to do so.

Management reviews its capital management approach on an ongoing basis and believes that this approach, given the relative size of the Company, is reasonable.

There were no changes in the Company's approach to capital management during the period ended September 30, 2020. The Company is not subject to externally imposed capital requirements.

10. FINANCIAL INSTRUMENTS

The Company is exposed in varying degrees to financial instrument related risks by virtue of its activities. The overall financial risk management program focuses on preservation of capital, and protecting current and future Company assets and cash flows by reducing exposure to risks posed by the uncertainties and volatilities of financial markets.

The types of risk exposure and the way in which such exposures are managed are as follows:

Credit Risk - The Company's credit risk is primarily attributable to its liquid financial assets. The Company limits exposure to credit risk on liquid financial assets through maintaining its cash and cash equivalents with high-credit quality financial institutions. The Company does not have financial assets that are invested in asset backed commercial paper. Other receivables are comprised primarily of tax receivables generated on the purchase of supplies and services for the Company's exploration programs, which are refundable from the Canadian government. The Company's maximum exposure to credit risk is the carrying amount of financial assets on the consolidated statements of financial position.

Liquidity Risk – The Company's cash and cash equivalents are invested in business accounts with high-credit quality financial institutions which are available on demand for the Company's programs. Future operations or exploration programs will require additional financing primarily through equity markets.

Market Risk – Market risk is the risk of loss that may arise from changes in market factors such as interest rates, foreign exchange rates and commodity prices.

Notes to the Condensed Consolidated Financial Statements Nine month period ended September 30, 2020 (Unaudited – Prepared by management) (Expressed in Canadian dollars)

10. FINANCIAL INSTRUMENTS (continued)

Interest rate risk – In respect to the Company's financial assets, the interest rate risk mainly arises from the interest rate impact on cash and cash equivalents and term deposits. Every 1% fluctuation in interest rates up or down would have an insignificant impact on profit or loss.

Foreign currency risk - The Company is exposed to foreign currency risk to the extent that certain monetary financial instruments and other assets are denominated in United States dollars. The Company has not entered into any foreign currency contracts to mitigate this risk and has no financial instruments held in United States funds. Therefore, foreign currency risk is minimized.

Commodity price risk – The value of the Company's mineral resource properties is related to the price of various commodities and the outlook for them. Commodity prices have historically fluctuated widely and are affected by numerous factors outside of the Company's control, including, but not limited to, industrial retail demand, central bank lending, forward sales by producers and speculators, level of worldwide production and short-term changes in supply and demand. The Company is not exposed to significant price risk.

Fair Value - The Company has various financial instruments comprised of cash and cash equivalents, trade and other receivables, investment in equities, trade and other payables and lease liability.

For disclosure purposes, all financial instruments measured at fair value are categorized into one of three hierarchy levels, described below. Each level is based on the transparency of the inputs used to measure the fair values of assets and liabilities:

Level 1 – Values based on unadjusted quoted prices in active markets that are accessible at the measurement date for identical assets or liabilities.

Level 2 – Values based on quoted prices in markets that are not active or model inputs that are observable either directly or indirectly for substantially the full term of the asset or liability.

Level 3 – Values based on prices or valuation techniques that require inputs that are both unobservable and significant to the overall fair value measurement.
