TRIUMPH GOLD CORP.
Notes to the Condensed Consolidated Financial Statements
Nine month period ended September 30, 2021

(Expressed in Canadian dollars)

1. NATURE AND CONTINUANCE OF OPERATIONS

Triumph Gold Corp. was continued under the British Columbia Business Corporations Act on December 19, 2011 and is extra-provincially registered in the Yukon Territory. The Company is listed on the TSX Venture Exchange (“TSXV”), having the symbol “TIG”. The Company’s principal business activity is the exploration for mineral resources, primarily in the Yukon Territory, Canada.

The Company’s corporate office and principal place of business is Suite 1100, 1111 Melville Street, Vancouver, British Columbia, Canada, V6E 3V6.

The consolidated financial statements have been prepared on a going concern basis which assumes the Company will realize its assets and discharge its liabilities in the normal course of business. The Company’s ability to continue as a going concern is dependent upon its ability in the future to achieve profitable operations and, in the meantime, to obtain the necessary financing to meet its obligations and repay its liabilities when they become due. External financing, predominantly by the issuance of equity to the public, will be sought to finance the operations of the Company. Although the Company has a history of raising money, there is no guarantee of this in the future. In March 2020, the World Health Organization declared coronavirus COVID-19 a global pandemic. This contagious disease outbreak, which has continued to spread, and any related adverse public health developments, has adversely affected workforces, economies, and financial markets globally, potentially leading to an economic downturn. While the impact of COVID-19 is expected to be temporary, the current circumstances are dynamic and the impacts of COVID-19 on business operations cannot be reasonably estimated at this time. There can be no assurance that the Company will not be impacted by adverse consequences that may be brought about by the pandemic’s impact on its business, results of operations, financial position and cash flows in the future. As a result, there always exists uncertainty that causes significant doubt about the Company’s ability to continue as a going concern. These consolidated financial statements do not include any adjustments to the amounts and classification of assets and liabilities that might be necessary should the Company be unable to continue in business.

2. BASIS OF PREPARATION

Statement of compliance to International Financial Reporting Standards

These condensed consolidated interim financial statements have been prepared in accordance with International Financial Reporting Standards (“IFRS”) issued by the International Accounting Standards Board (“IASB”) and interpretations of the International Financial Reporting Interpretations Committee (“IFRIC”). Therefore, these financial statements comply with International Accounting Standard (“IAS”) 34 “Interim Financial Reporting”.

This interim financial report does not include all of the information required of a full annual financial report and is intended to provide users with an update in relation to events and transactions that are significant to an understanding of the changes in financial position and performance of the Company since the end of the last annual reporting period. It is therefore recommended that this financial report be read in conjunction with the annual financial statements of the Company for the year ended December 31, 2020.

2. BASIS OF PREPARATION (continued)

Statement of compliance to International Financial Reporting Standards (continued)

The financial statements were authorized for issue on November 4, 2021 by the directors of the Company.

Principles of consolidation

These consolidated financial statements include the accounts of the Company and its wholly-owned subsidiary, Bushmaster Exploration Services (2007) Ltd. All significant intercompany transactions and balances have been eliminated upon consolidation. The financial statements of the subsidiary are prepared using consistent accounting policies and reporting dates of the Company. The functional currency for the Company and its subsidiary is the Canadian dollar.

New or revised accounting standards not yet adopted

The adoption of the following standards and interpretations, which have been issued but are not yet effective, are not expected to have a material effect on the Company's future results and financial position:

Onerous Contracts—Cost of Fulfilling a Contract (Amendments to IAS 37)

The amendments to IAS 37 specify which costs an entity includes in determining the cost of fulfilling a contract for the purpose of assessing whether the contract is onerous. Costs that relate directly to a contract can either be incremental costs of fulfilling that contract (examples would be direct labour, materials) or an allocation of other costs that relate directly to fulfilling contracts (an example would be the allocation of the depreciation charge for an item of property, plant and equipment used in fulfilling the contract).

These amendments are effective for reporting periods beginning on or after January 1, 2022.

Classification of Liabilities as Current or Non-current (Amendments to IAS 1)

The amendments to IAS1 provide a more general approach to the classification of liabilities based on the contractual arrangements in place at the reporting date.

These amendments are effective for reporting periods beginning on or after January 1, 2023.

4. EXPLORATION AND EVALUATION ASSETS

Exploration and evaluation assets and related expenditures comprise:

Freegold Mountain, Canada

The Freegold Mountain project is comprised of the following exploration properties:

(i) Tinta Hill Property, Yukon

The Company holds a 100% interest in the Tinta Hill Property subject to an annual advanced royalty payment of \$20,000 and a 3% Net Smelter Return (“NSR”). The advanced royalty payment will be netted against royalty interest payments after commencement of commercial production. Of the 3% NSR, the Company can elect to purchase 2% at a cost of \$250,000 for the first 1% and \$1,000,000 for the second 1%.

As at September 30, 2021 the total advanced royalty payment made was \$100,000 (December 31, 2020 – \$80,000). During the nine month period ended September 30, 2021, the Company paid \$7,291 (December 31, 2020 - \$7,304) in filing fees for the Tinta Hill Property.

Freegold Mountain, Canada (continued)

(ii) Freegold Property, Yukon

The Company holds a 100% interest in the Freegold Property subject to an annual advanced royalty payment of \$ 10,000 and a 3% NSR. The advanced royalty payment will be netted against royalty interest payments after commencement of commercial production. Of the 3% NSR, the Company can elect to purchase 2% at a cost of \$250,000 for the first 1% and \$1,000,000 for the second 1%.

As at September 30, 2021, the total advanced royalty payment made was \$50,000 (December 31, 2020 – \$40,000). During the nine month period ended September 30, 2021, the Company paid \$7,291 (December 31, 2020 - \$7,304) in filing fees for the Freegold Property.

(iii) Goldstar Property, Yukon

The Company holds a 100% interest in the Goldstar Property subject to an advance payment of \$10,000 and a 3% NSR. The advanced royalty payment will be netted against royalty interest payments after the commencement of commercial production. Of the 3% NSR, the Company can elect to purchase 2% at a cost of \$500,000 for the first 1% and \$1,000,000 for the second 1%.

As at September 30, 2021, the total advanced royalty payment made was \$50,000 (December 31, 2020 – \$40,000).

(iv) Golden Revenue Property, Yukon

The Company holds a 100% interest in the Golden Revenue Property subject to a 1% NSR in favour of ATAC Resources Ltd on that portion of the property which is not subject to an underlying royalty. There is a 2% underlying NSR on a portion of the property. A total of 75% of the underlying NSR (1.5% NSR) may be purchased at any time for \$600,000. On June 13, 2018, the Company acquired the underlying NSR for a purchase price of \$100,000, thereby conveying the exclusive right to be paid all future rights associated from the NSR to the Company.

During the nine month period ended September 30, 2021, the Company paid \$7,292 (December 31, 2020 - \$7,303) in filing fees for the Golden Revenue Property.

To September 30, 2021 and December 31, 2020, the Company has recorded a \$50,000 provision for reclamation activity related to the Freegold Mountain project.

Big Creek, Canada

On February 3, 2021, and as closed on March 1, 2021, the Company entered into a purchase and sale agreement to acquire certain claims comprising the Big Creek copper-gold property located in the Whitehorse Mining District of Yukon, Canada. As consideration, the Company issued 1,250,000 common shares at a fair value of \$225,000 (note 5).

The Big Creek copper-gold property is subject to a 1.5% NSR.

6. COMMITMENTS AND CONTINGENCY

- a) As of September 30, 2021, the Company has \$19,550 (December 31, 2020 – \$19,583) in term deposits with a Canadian financial institution for the guarantee of business credit cards.
- b) The Company has included in officers' employment agreements a change in control clause that entitles them to a lump sum severance payment equal to 1.5 to 2.0 times their annual base salaries. This would amount to up to \$630,000 based on salaries in effect as at September 30, 2021 and December 31, 2020.
- c) Under the terms of the Company's by-laws, the Company indemnifies individuals who have acted at the Company's request to be a director and/or officer of the Company. The claims covered by such indemnifications are subject to statutory and other legal limitation periods.
- d) On July 10, 2018, the Company entered into a sublease agreement that provides for a base rent of \$5,175 per month, commencing September 1, 2018 to August 31, 2020. At December 31, 2019, a security deposit consisting of the last two months of rent, totaling \$10,350, had been recorded in prepaids and deposits.

The Company initially recognized a lease liability obligation related to its lease commitment for its office lease of \$88,087. The liability was measured at the present value of the remaining lease payments, discounted using the Company's incremental borrowing rate of 8% as at January 1, 2019. The associated right-of-use asset was measured at the lease obligation amount, resulting in no adjustment to the opening balance of deficit. The right-of-use asset will be depreciated and the Company will record a related interest expense over the term of the lease liability obligation. During the year ended December 31, 2020, the Company paid lease obligations of \$31,050, thereby reducing the lease liability, recorded \$30,540 in depreciation of the right-of-use asset and \$510 in interest expense.

Commencing September 1, 2020, the Company extended the sublease to August 31, 2022. The Company recognized a lease liability obligation and associated right-of-use asset related to its lease commitment for its office lease of \$115,185. The liability was measured at the present value of the remaining lease payments, discounted using the Company's incremental borrowing rate of 8%. The right-of-use asset will be depreciated and the Company will record a related interest expense over the term of the lease liability obligation. During the nine month period ended September 30, 2021, the Company paid lease obligations of \$46,575 (December 31, 2020 - \$20,700), thereby reducing the lease liability, recorded \$43,194 (December 31, 2020 - \$19,197) in depreciation of the right-of-use asset and \$4,412 (December 31, 2020 - \$2,755) in interest expense.

The Company will depreciate the right-of-use asset and record interest over the remaining lease commitment period as follows:

	<u>Depreciation</u>	<u>Interest</u>
	\$	\$
2021	14,398	901
2022	38,395	947
	<u>52,793</u>	<u>1,848</u>

6. COMMITMENTS AND CONTINGENCY (continued)

- e) Commencing October 1, 2020, the Company entered into a lease agreement that provides for a base rent of \$3,500 per month, commencing October 1, 2020 to October 31, 2023.

The Company recognized a lease liability obligation and associated right-of-use asset related to its lease commitment for its office lease of \$109,662. Included in the right-of-use asset is \$3,500, representing the last month's rent, prepaid in advance. The liability was measured at the present value of the remaining lease payments, discounted using the Company's incremental borrowing rate of 8%. The right-of-use asset will be depreciated and the Company will record a related interest expense over the term of the lease liability obligation. During the nine month period ended September 30, 2021, the Company paid lease obligations of \$31,500 (December 31, 2020 - \$10,500), thereby reducing the lease liability, recorded \$29,099 (December 31, 2020 - \$10,500) in depreciation of the right-of-use asset and \$5,170 (December 31, 2020 - \$2,067) in interest expense.

The Company will depreciate the right-of-use asset and record interest over the remaining lease commitment period as follows:

	Depreciation	Interest
	\$	\$

8. SEGMENTED INFORMATION

The Company operates in one operating segment, that being exploration of mineral properties. All of the Company's assets are located in Canada.

9. CAPITAL MANAGEMENT

The Company includes cash and cash equivalents and equity, comprising issued common shares, reserve and deficit, in the definition of capital.

The Company manages its capital structure and makes adjustments, based on the funds available to the Company, in order to support the acquisition, exploration and development of mineral properties. The Board of Directors does not establish quantitative return on capital criteria for management, but rather relies on the expertise of the Company's management to sustain future development of the business.

The properties in which the Company currently has an interest are in the exploration stage; as such the Company is dependent upon external financings to fund activities. In order to carry out planned exploration and pay for administrative costs, the Company will spend its existing working capital and raise additional funds as needed. The Company will continue to assess new properties and seek to acquire an interest in additional properties if it feels there is sufficient geologic or economic potential and if it has adequate financial resources to do so.

Management reviews its capital management approach on an ongoing basis and believes that this approach, given the relative size of the Company, is reasonable.

There were no changes in the Company's approach to capital management during the nine month period ended September 30, 2021. The Company is not subject to externally imposed capital requirements.

10. FINANCIAL INSTRUMENTS

The Company is exposed in varying degrees to financial instrument related risks by virtue of its activities. The overall financial risk management program focuses on preservation of capital, and protecting current and future Company assets and cash flows by reducing exposure to risks posed by the uncertainties and volatilities of financial markets. The types of risk exposure and the way in which such exposures are managed are as follows:

Credit Risk - The Company's credit risk is primarily attributable to its liquid financial assets. The Company limits exposure to credit risk on liquid financial assets through maintaining its cash and cash equivalents with high-credit quality financial institutions. The Company does not have financial assets that are invested in asset backed commercial paper. Other receivables are comprised primarily of tax receivables generated on the purchase of supplies and services for the Company's exploration programs, which are refundable from the Canadian government. The Company's maximum exposure to credit risk is the carrying amount of financial assets on the consolidated statements of financial position.

Liquidity Risk – The Company's cash and cash equivalents are invested in business accounts with high-credit quality financial institutions which are available on demand for the Company's programs. Future operations or exploration programs will require additional financing primarily through equity markets.

The Company has lease obligations (note 6), the maturity of which are as follows:

	<u>Total</u>
	\$
Due within 1 year	98,925
Due in 2 years	<u>38,500</u>
	<u>137,425</u>

Market Risk – Market risk is the risk of loss that may arise from changes in market factors such as interest rates, foreign exchange rates and commodity prices.

Interest rate risk – In respect to the Company's financial assets, the interest rate risk mainly arises from the interest rate impact on cash and cash equivalents and term deposits. Every 1% fluctuation in interest rates up or down would have an insignificant impact on profit or loss.

Foreign currency risk - The Company is exposed to foreign currency risk to the extent that certain monetary financial instruments and other assets are denominated in United States dollars. The Company has not entered into any foreign currency contracts to mitigate this risk and has no financial instruments held in United States funds. Therefore, foreign currency risk is minimized.

Commodity price risk – The value of the Company's mineral resource properties is related to the price of various commodities and the outlook for them. Commodity prices have historically fluctuated widely and are affected by numerous factors outside of the Company's control, including, but not limited to, industrial retail demand, central bank lending, forward sales by producers and speculators, level of worldwide production and short-term changes in supply and demand. The Company is not exposed to significant price risk.

10. FINANCIAL INSTRUMENTS (continued)

Fair Value - The Company has various financial instruments comprised of cash and cash equivalents, trade and other receivables, investment in equities, trade and other payables and lease liabilities.

Level 1 – Values based on unadjusted quoted prices in active markets that are accessible at the measurement date for identical assets or liabilities.

Level 2 – Values based on quoted prices in markets that are not active or model inputs that are observable either directly or indirectly for substantially the full term of the asset or liability.

Level 3 – Values based on prices or valuation techniques that require inputs that are both unobservable and significant to the overall fair value measurement.
